

CONSULTORES INTERDISCIPLINARIOS EN ASUNTOS
ADMINISTRATIVOS, CONTABLES, FINANCIEROS,
ECONÓMICOS, LEGALES Y TRIBUTARIOS

Dr. Ricardo Rodríguez Silvero is a consultant and advisor specialized in investment, taxes, sustainable development and international economic integration as well as in public policies related to these topics.

He works with associates in MERCOSUR (trading block composed by South American countries), the European Union and the USA.

He has been an advisor to the government in Paraguay since 1989 as well as to the binational (Paraguay/Brazil) entity Itaipu, one of the world's largest hydroelectric dams, first in 1990/91 and later from 2019 until May 2023.

He has also been the director and owner of a consultancy firm that offers services such as company legalization and documentation since 1984; and an analyst and researcher on the fields of Economics and Social Sciences for local and international institutions.

Dr. Rodríguez Silvero has published several books and articles in specialized magazines in the Americas and Europe, in connection to the issues mentioned above. He regularly writes columns for local and international newspapers.

He has a Ph.D. in Economic and Social Sciences from the University of Bremen, Germany, (Doktor summa cum laude), and completed graduate studies and research work on socioeconomic issues in Universities in both Europe and Paraguay.

He has travelled extensively both for study and giving lectures in US universities as a guest expert.
